## Introduction

One of the most common problems facing new affiliates, old affiliates who might be strapped for cash, or anyone who likes instant gratification, is the waiting period between making affiliate sales and actually getting paid for them.

Enter instant commission affiliate programs.

There's all kinds of benefits of instant commission affiliate programs - the most obvious is that you get paid instantly.

But then there's other things like not having to worry about keeping track of who owes you what, when it's going to be paid and if it's going to be paid. Another benefit is that with many of these programs the affiliate pockets 100% profit.

It's important to note though that instant commission and 100% commission affiliate programs are not the same thing. An affiliate program may pay out a 100% commission, but that doesn't mean it will be an instant payment - you'll likely have to wait a while until you're paid like any other regular affiliate program.

Similarly, an instant commission program may pay out commissions of any percentage, not necessarily 100% commissions, but it pays them out right away direct to your account.

The two main tracking scripts used in most instant commission affiliate programs are the \$7 Script and Rapid Action Profits.

### The \$7 Script

The \$7 Script by Jonathan Leger is a simple, but very clever method that is complete with everything you need to get set up selling downloadable products (of any price - not just \$7). It allows you to easily run your own affiliate program with one time offers on the back end and build a responsive customer list with some help from your affiliate base.

The only way to get it is by buying the [\\$7 Secrets](#) ebook where you'll find a free link inside.

With the script, the affiliate typically earns 100% instant commissions which are paid directly to their Paypal accounts, and the seller usually adds a customer / subscriber to their mailing list. In addition, the seller can also make money from a one time offer on the back end, when people buy the products linked to in the report and of course from follow-up email broadcasts.

The \$7 Script uses a simple affiliate link system making it really easy for affiliates to begin selling the product, without forms to fill out or an approval process (though there is an option which only allows customers to promote).

The links usually look something like this: <http://www.TrafficTipsReport.com/?e=PaypalEmail@Domain.com>

Affiliates just replace [PaypalEmail@Domain.com](http://www.TrafficTipsReport.com/?e=PaypalEmail@Domain.com) with their own Paypal email address and the commissions will go right to their Paypal account.

For a demonstration of how this works (and a really hot product to promote) go to:  
<http://www.traffictipsreport.com/affiliates.htm>

I'm not going to include much in the way of \$7 Secrets products in this report because there's a great directory of over 500 \$7 Script products at: <http://www.7dollaroffers.com>

### **Rapid Action Profits**

[Rapid Action Profits](#) is a similar but more robust system from Sid Hale, which allows the vendor to do a lot more and create a fuller affiliate program. Most often this is used for higher end products that pay affiliates much larger commissions.

Unlike the \$7 script, RAP products don't have to pay out 100% commissions... the commission percentage can be any amount, though you'll find that many RAP products pay out a 50% commission.

The reason is because Paypal doesn't allow you to split the payment between different Paypal accounts (ie. the seller and the affiliate), so payments much be sent in full to only one recipient.

So instead of 50% commission on each sale, you'd get 100% commissions on 50% of your sales. In other words, that's the full sales price for every second sale, which looks something like this:

Sale #1: Product creator  
Sale #2: Affiliate  
Sale #3: Product creator  
Sale #4: Affiliate

The downside of this is that if you make an odd number of sales, you won't truly be getting a 50% commission since the seller will be one up on you.

But the bright side is that you can also sometimes earn money on the back end sales as well, so be sure to check the specific terms on each site before you start promoting.

Most of the time, you do need to sign up for an affiliate account with RAP programs, though sometimes you can just use your Paypal email to create a link – see the signup pages for details.

Anyways, either program is legit and will pay you right away. It's just a matter of finding something that's a good fit for your target market and then getting out there and promoting.

There's also a few other programs that have the ability to pay out instant commissions such as some of the giveaway scripts or expensive shopping cart scripts, but they're in the minority of the market and are not really worth mentioning if you're looking for something specific to promote.

Hopefully this report will help you in finding something good to promote, so here's the list of some excellent options to get your affiliate commissions rolling in - instantly!

Please note though, that I do not recommend or endorse any of the products mentioned in this report. This report is for informational purposes only. As always, it's a good idea to take a look at the product yourself before prompting it.

To Your Online Success,

Justin Michie
